

MONETRA[®]

Integrated Payment Software

Restaurant

- Protects sensitive data with comprehensive PA-DSS and PCI compliance
- Reliable, non-stop transaction processing and sophisticated, automatic communications fail-over
- Concurrently process all types of transactions for multiple processors and unlimited client devices
- Keeps your applications independent with support for all major transaction processors

In the restaurant industry, speed and dependability are crucial. Whether your establishment is considered quick-service or dine-in, Monetra[®] can reliably and securely handle any payment request. With the versatile Monetra software architecture, your restaurant can gain additional revenue by processing card present (on site) purchases, plus orders placed via Internet and telephone. Monetra supports pin-debit and gift card transactions too, giving you even more opportunities to increase sales. Monetra's robust and scalable design allows just one Monetra Payment Engine to support all types of transactions and multiple POS terminals.
